CONTINUING EDUCATION SEMINAR

Program Date: **July 21, 2016**

Location: AIA Chicago
35 E Wacker Dr #250
Chicago, IL 60601
(Contact: Nick Niedospial/Peter Stutz, call AIA Chicago 312-670-7770)

Program Title: **Moisture Control for Masonry**

Time/Length 12:00pm / 60 minutes

Learning Units: Registered with AIA for 1.0 LU
Registered with AIA for 1.0 Health Safety Welfare (HSW) LU
Certificate of Completion provided for non-AIA member self-reporting

Cost: No charge

Meal: Lunch provided by IMI

Presenter: Scott Conwell, FAIA, CDT, LEED AP
Illinois Director of Industry Development, International Masonry Institute

Program Description: This program takes a detailed look at a masonry cavity wall's moisture management system, analyzing the components of air space, flashing, weeps, air barrier, mortar joints, drainage accessories, the masonry materials themselves, and perhaps the most critical component to a watertight wall, workmanship procedures. It will look at details and conditions throughout the wall that present unique opportunities for moisture intrusion via bulk water, air infiltration, and vapor diffusion, and how to mitigate moisture at these conditions.

AIA Provider Name: International Masonry Institute

AIA Provider No. G390

AIA Program No. 05FMC1
